## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-8, and 12-19 are drawn to the moisture permeable waterproof material, classified in class 442, subclass 149.
  - II. Claims 9-11, drawn to the method of producing a moisture permeable waterproof composite, classified in class 427 in various subclasses.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the pretreating agent could be present in the adhesive itself instead of upon the fibers, or alternatively the pretreating agent could be providing in the air as the fibers are being formed and thus adhere then, instead of in a bath.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
4. A telephone call was made to Mr. Daniel Christenbury on 12/24/2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR

Art Unit: 1771

1.143). It should be noted that in Applicant's response to the nonfinal rejection has not been addressed as the Examiner feels that the method claims needed to be restricted out and an opportunity be provided to Applicant to chose which invention they would like to pursue.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
